Discussion/Decision

Adriane Borgias explained that Ecology would not be adding their name to the letter as they are prohibited from lobbying activities and this letter could be perceived as lobbying for Ecology's budget. She excused herself from the discussion.

There was a consensus decision to accept the letter as written with noted tracking changes.

Rick Eichstaedt indicated that he wanted to discuss his conversation with Representative Andy Billig concerning a legislative allocation for the Technical Consultant. Bruce Rawls would like to discuss his conversation with his Commissioners concerning involving Greater Spokane Inc. (GSI) to support funding for the Task Force. These will be talked about at the Administrative and Technical Work Group meetings.
