

Distribution Transformer Change Out Program

SRRTTF

May 28, 2014

Bruce Howard

Avista's Service Territory

PCBs and Utilities

- PCBs included in wide variety of products, such as transformer oil
- Manufacture banned in 1979
- Avista began immediate removals of TSCA PCB transformers
- Next, began removals of PCB-contaminated transformers
- Testing and planning

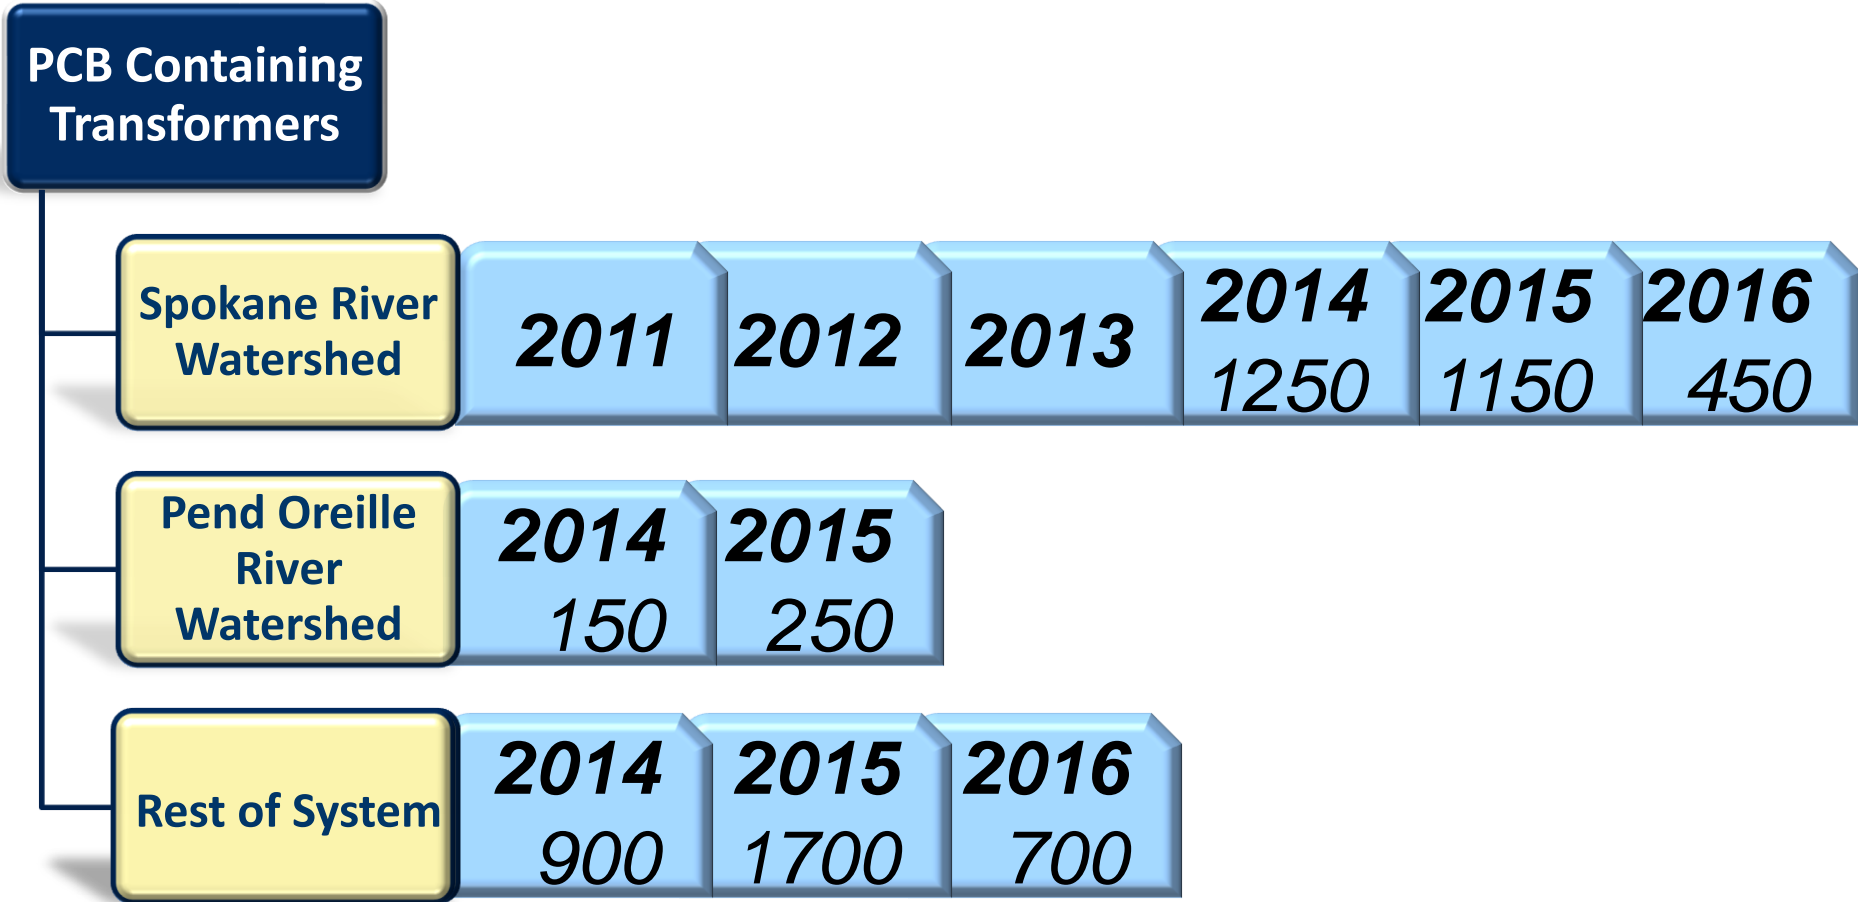

Strategic Removal

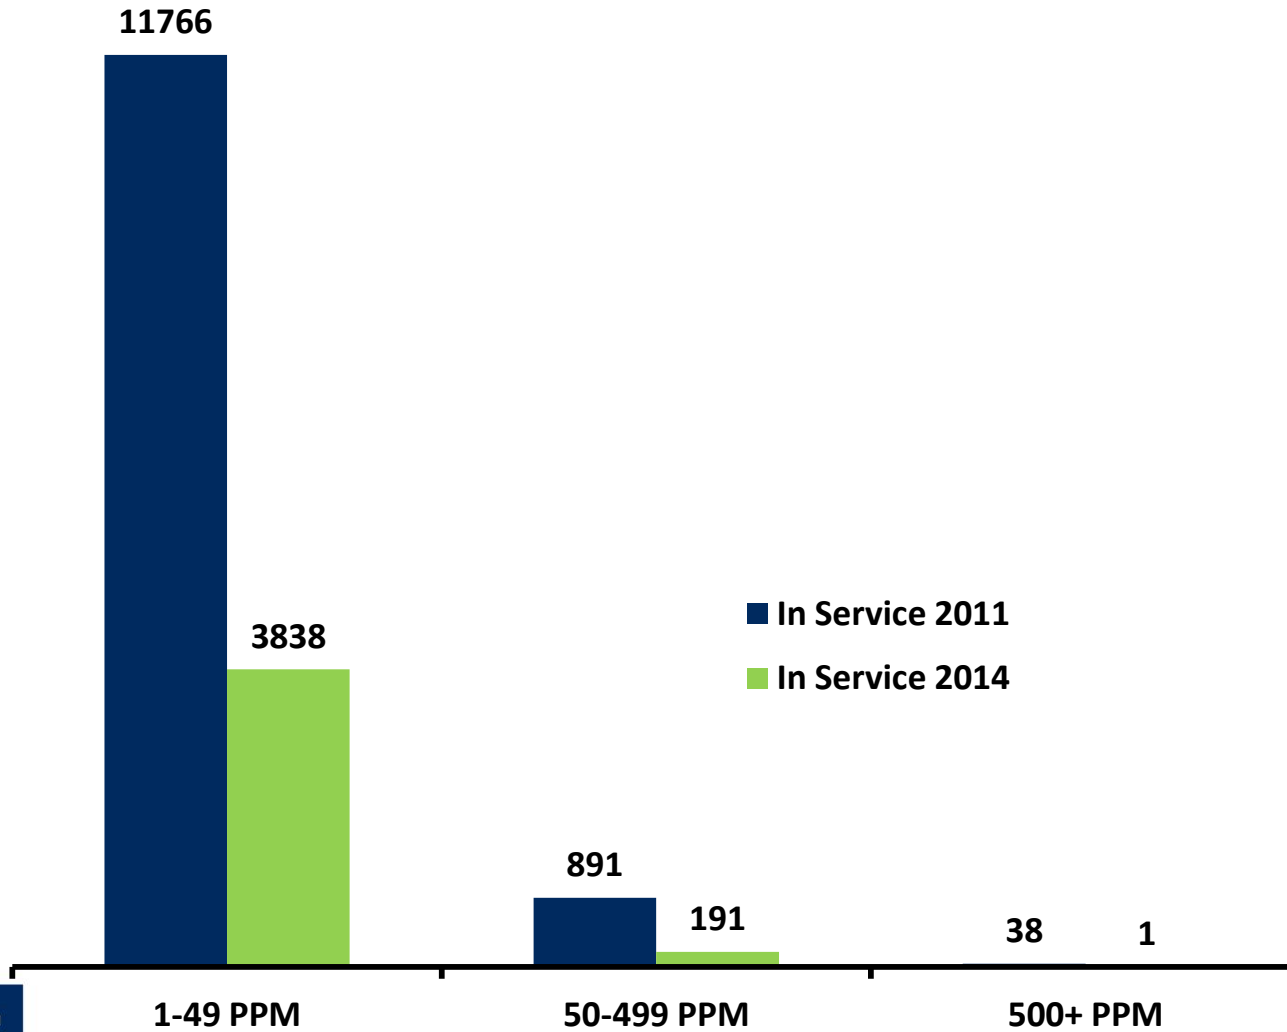

- Planned change-out of all overhead transformers w/ PCBs
- Coordinating with other infrastructure programs
- Saving energy, working efficiently, reducing environmental risks

Transformers still to be removed

Progress

Outcomes
