Chris and Kara-

Attached are track change comments from the City of Post Falls with regard to the EPA Submittal from the Task Force.

In addition to the track changes comments I have some general suggestions:

General Comments

EPA requested a 3 page document. This response should be carefully reviewed and consolidated into the most concise response which still conveys the important points.

Once the document text is revised, all of the headings should be reviewed to ensure they are communicating the correct message. Simplifying the headings may be the best approach.

Notes to Editor

Document should be edited to consistently refer to the Task Force and Ecology.

Avoid "their", "we", and "our" or else use throughout the document.

Thank you for compiling these comments.

-John
