

TTWG Report & Technical Topics

SRRTTF

Dave Dilks

April 27, 2016

Topics

- Comprehensive Plan Memoranda
 - Task 1: Sources and Pathways
 - Task 2: Assessment of Control Actions
- Analysis of existing data for Dr. Rodenburg

Comprehensive Plan Memoranda

Task 1: PCB Sources and Pathways

- Task 1a memorandum described the key sources and transport mechanisms
 - Finalized
- Task 1b memorandum assigns magnitudes (where possible)
 - Draft memorandum issued April 1
 - Comments requested by April 26
 - Two comments received to date
 - Final draft due May 18

Comprehensive Plan Memoranda

Task 2: Assessment of Control Actions

- Task 2a memorandum provides inventory of potential control actions
 - Draft memorandum issued February 19
 - Numerous comments received
 - Final draft due May 18
- Current intent is to describe (not dictate) actions for sites with control plans in place
 - WWTPs, MTCA sites

Comprehensive Plan Memoranda

Task 2: Assessment of Control Actions

- Task 2b memorandum will summarize cost and efficiency of control actions
 - First draft due June 1
- Similar to Task 2a, intent is to focus on actions beyond existing control plans

Data Availability for Pattern Analysis

- How much data exists to allow Dr. Lisa Rodenburg to conduct pattern analysis?

Category	Number of Samples	Time Period
Spokane River	117 (plus up to 35 more)	2014 – 2016
Latah Creek	9 (plus up to 7 more)	2014 – 2016
Wastewater	461	2010 – 2016
Groundwater	238	2007 - 2015
Stormwater	151	2007 - 2014

*Details available in draft memorandum posted to web site
