

**TASKS PERFORMED BY SRRTTF**  
 -perform congener analysis for sources  
 -perform limited sampling  
 -confirm contamination from a site  
 -consult with TCP

**TCP CLEANUP PROCESS OPTIONS**

Independent – owner takes care of problem without any involvement or approval by TCP

VCP – owner submits documents for TCP review and approval with the goal of getting a TCP- approved cleanup and a No Further Action

Formal – TCP engages the responsible party, enters a legal agreement, and directs all aspects of the investigation and cleanup; decisions on whether or not to engage these sites is based on the level of risk and availability of TCP staff resources
