

Task Force MOA and Organization Questions
Common themes from Task Force Interview Question Summary from August 2018

What elements of the Task Force MOA do you think might need updating, and why?

- Overall it is pretty good as is
- The MOA is clear but may want to include a small addendum to address plan implementation and include all the Idaho dischargers
- Don't change it now but wait until permits are done and then make only small changes if any at all.

What do you think would be an effective process for making changes to the MOA?

- Have a few members of the Task Force meet to discuss small changes that could be made and provide recommendation back to the full Task Force.

At the August 2018 Task Force meeting the Task Force agreed to hold on making changes to the MOA at that time.
