

Technical Track Work Group Meeting of the SRRTTF
Tuesday, January 5, 2021
10:00 – 11:00 AM
ZOOM

Meeting Materials:

- Draft List of Projects in Ten Year and Two Year Work Plan contained in Legislative Funding Request letter

Agenda

- Discuss Actions/Projects listed in draft funding request. Clarify/add/subtract/advocate.
- Status of QAPP and Scope of Work for Sampling artificial bottom fill material in Mission Reach.

Summary Notes:

After further discussion it was determined that the samples from artificial bottom fill material collected from Mission Reach should be analyzed for PCBs using Method 1668. Dave Dilks will make the change in the QAPP and consultant contracts.

The Tech Track Work Group walked through all of the projects listed in the SRRTTF Draft 10-year funding request with two objectives.

1. Clarify the project request, timeline and cost – and agree that it is relevant
2. Develop a 2 year request through the discussion.

The outcome of these discussions are reflected in the final legislative funding request letter submitted by the Task Force on January 8th.
