

TTWG Projects and Survey Results

TTWG Project Status

Table 1 – TTWG Project Status - 3-11-2021

	Task	Status	Cost Estimate
1	Long-term Effectiveness Monitoring – future years	Underway – needs funding in future years	Fish: \$65k/yr Water: \$135k/yr
	Hot Spot Source Identification (See below)		
	<ul style="list-style-type: none"> • Sampling of Artificial Bottom Fill Material 	Underway	
2	<ul style="list-style-type: none"> • Sub-Bottom Object Detection Survey 	Pending future prioritization	\$20k
3	<ul style="list-style-type: none"> • Analysis of Existing Bottom Sediment Samples from Trent Bridge, other 	Pending future prioritization	\$5k
4	<ul style="list-style-type: none"> • Additional Stormwater Reconnaissance 	Pending future prioritization	Negligible
	<ul style="list-style-type: none"> • Near-bank Temperature Monitoring 	Completed	
5	<ul style="list-style-type: none"> • Groundwater elevation monitoring to determine periods of groundwater inflow – Mission Reach near Basalt – SVRPA interface 	Pending future prioritization	?
6	<ul style="list-style-type: none"> • Monitor Artesian Well – Mission Reach 		\$10k
	<ul style="list-style-type: none"> • Deeper dive into the origin of fill material 	Currently measuring PCBs in brick and rock in Mission, wait on this this task	\$20
7	<ul style="list-style-type: none"> • Additional water column monitoring near hot spot– Mission Reach 	Pending future prioritization	\$50k
8	<ul style="list-style-type: none"> • Additional biofilm sampling 	Pending future prioritization	\$50-90k
	Sampling to Define Non-point Load during High River Flows	Pending future prioritization SPMDs at high flow may cover- wait on this task	\$30 - \$50k
9	PMF Phase 2B	Partially funded. Need additional funding	\$15k
10	Selective Low-flow Water Column Synoptic Sampling (including USGS Gage to 9-Mile Reach for Mass Balance)	Pending future prioritization	\$50 - 75k
11	Sources and Pathways of PCB-11: Phase I	Referred from TSCA workgroup, pending future prioritization	\$8k
12	Old School drywell, stormwater concentrations potential for transport – Phase I Assessment	Pending future prioritization	\$10k
	Significance of Groundwater Sources Upgradient of Kaiser	Completed	

SPOKANE RIVER REGIONAL TOXICS TASK FORCE

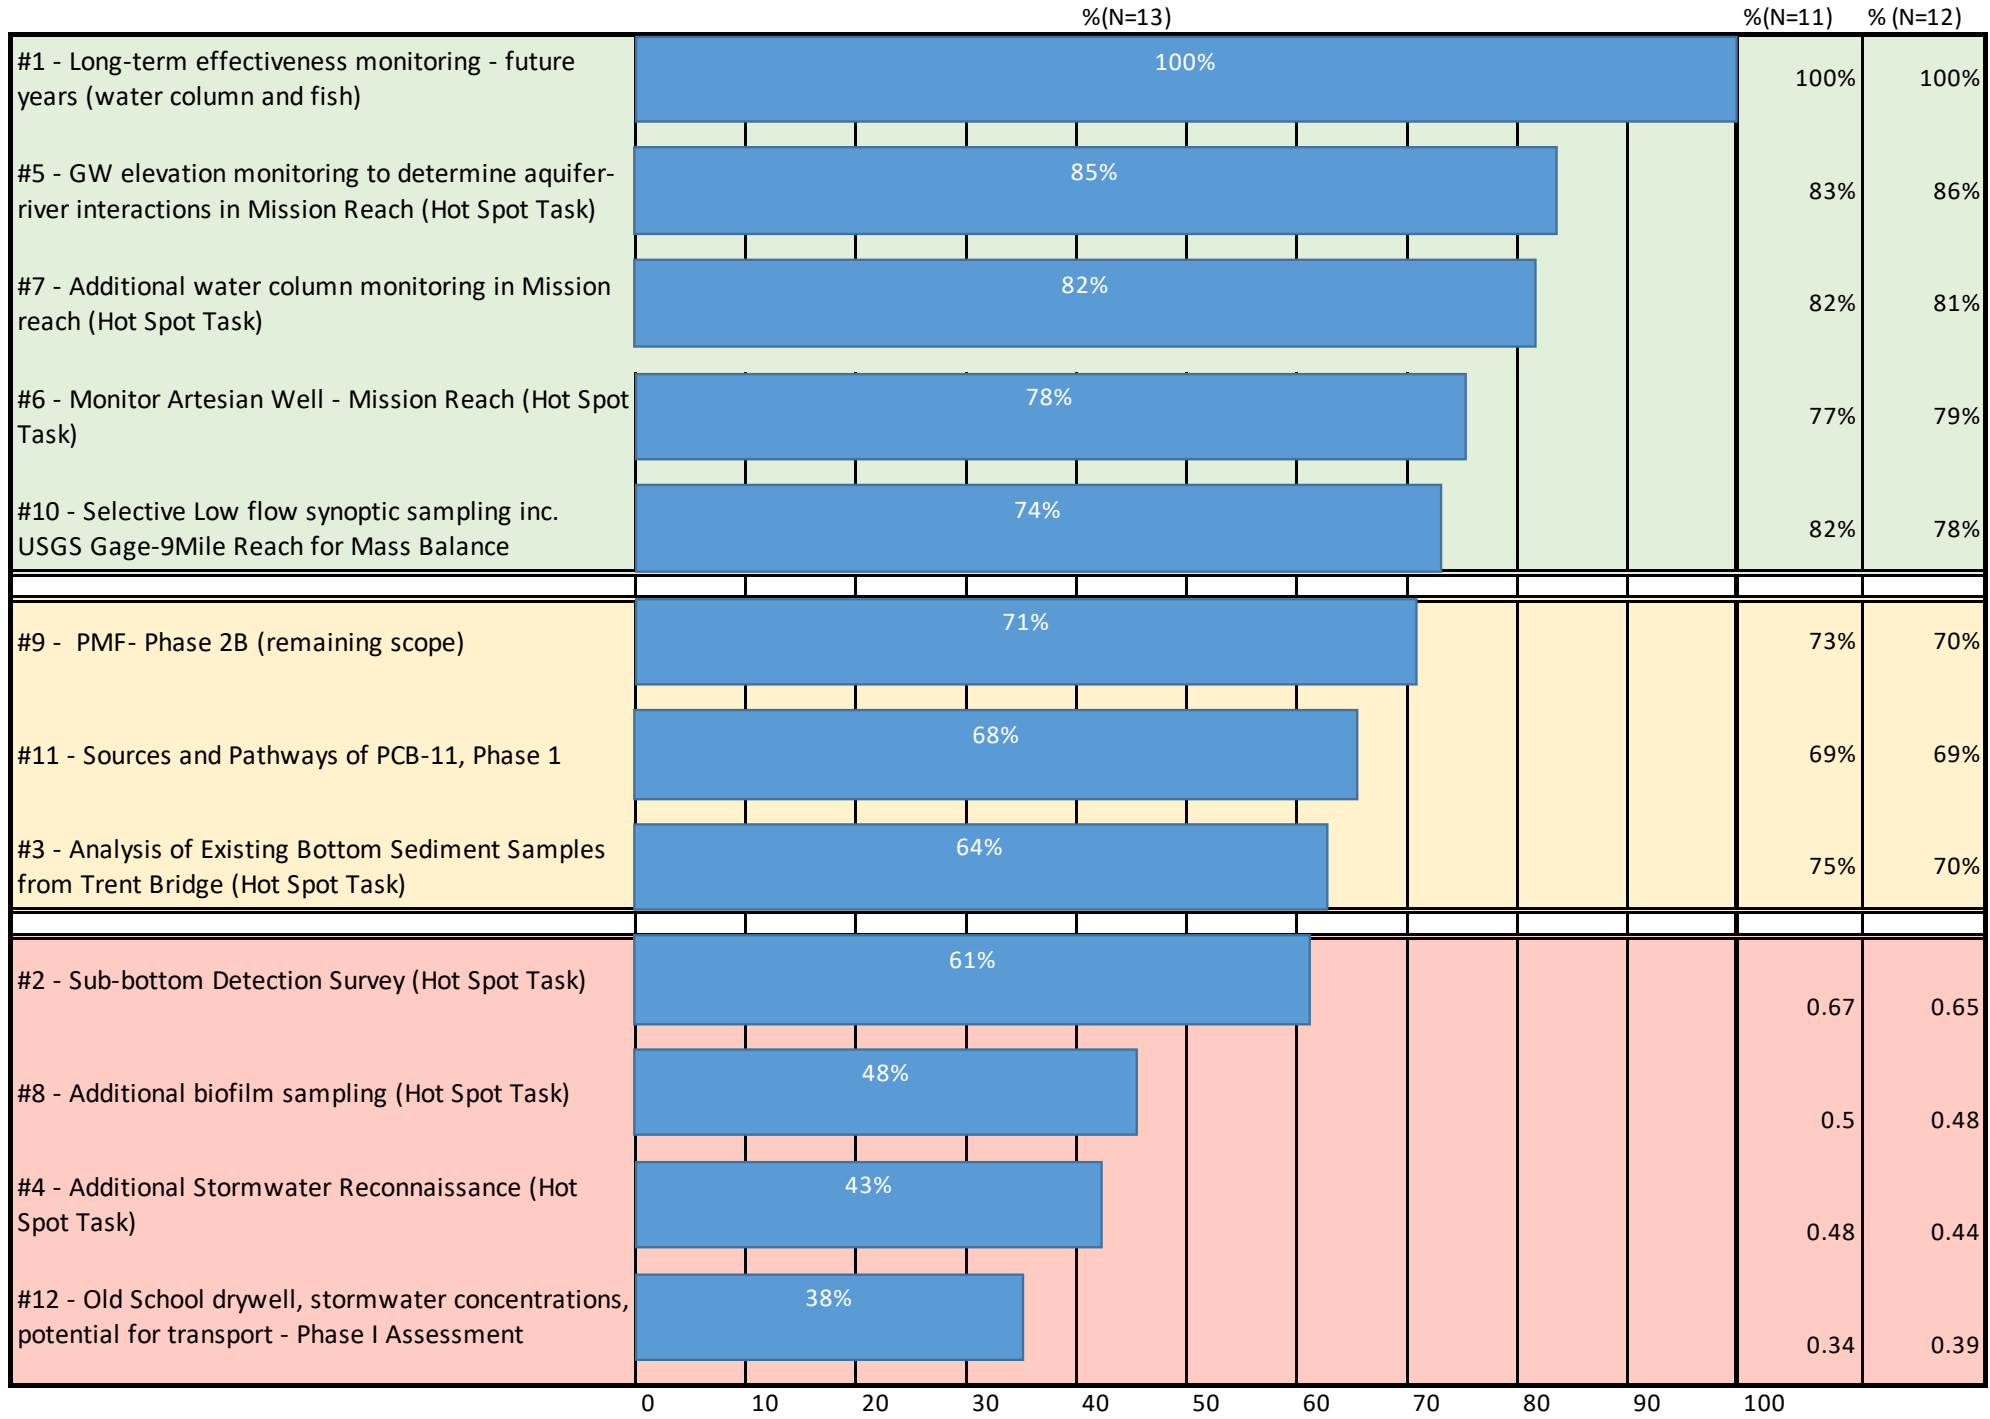

Projects Considered

	Task	Status	Cost Estimate
1	Long-term Effectiveness Monitoring – future years	Underway – needs funding in future years	Fish: \$65k/yr Water: \$135k/yr
	Hot Spot Source Identification (See below)		
	• Sampling of Artificial Bottom Fill Material	Underway	
2	• Sub-Bottom Object Detection Survey	Pending future prioritization	\$20k
3	• Analysis of Existing Bottom Sediment Samples from Trent Bridge, other	Pending future prioritization	\$5k
4	• Additional Stormwater Reconnaissance	Pending future prioritization	Negligible
	• Near-bank Temperature Monitoring	Completed	
5	• Groundwater elevation monitoring to determine periods of groundwater inflow – Mission Reach near Basalt – SVRPA interface	Pending future prioritization	?
6	• Monitor Artesian Well – Mission Reach		\$10k
	• Deeper dive into the origin of fill material	Currently measuring PCBs in brick and rock in Mission, wait on this this task	\$20
7	• Additional water column monitoring near hot spot– Mission Reach	Pending future prioritization	\$50k
8	• Additional biofilm sampling	Pending future prioritization	\$50-90k
	Sampling to Define Non-point Load during High River Flows	Pending future prioritization SPMDs at high flow may cover- wait on this task	\$30 - \$50k
9	PMF Phase 2B	Partially funded. Need additional funding	\$15k
10	Selective Low-flow Water Column Synoptic Sampling (including USGS Gage to 9-Mile Reach for Mass Balance)	Pending future prioritization	\$50 - 75k
11	Sources and Pathways of PCB-11: Phase I	Referred from TSCA workgroup, pending future prioritization	\$8k
12	Old School drywell, stormwater concentrations potential for transport – Phase I Assessment	Pending future prioritization	\$10k
	Significance of Groundwater Sources Upgradient of Kaiser	Completed	

Ranking

Tiered Ranking

- These rankings are to be used as a guide in choosing projects for implementation
- Rankings are based on Task Force members' current state of knowledge. New or updated information may change the importance of a specific project
- Projects generally fell into three tiers (high, medium, low)
- The ranking of a project should not impact the Task Force's willingness to pursue specific grant opportunities that target projects that are lower on the list.
