- Upcoming TF recommendations
- Other

March 2022 Update

- **Highlights:**
 - Working on getting the next set of videos ready for the Digital Media Campaign
- **Next meeting**
 - April 12th @ 11am (Teams meeting)
- **Upcoming TF recommendations**
 - None at this time

March 2022 Update

- **Highlights**

- Small Working Group of TTWG (2/24) and TTWG (3/16) met to further develop projects for scope and budgeting. Approved Object Detection Survey rationale and budget.
- Schedule and timeline for project implementation are driven by timing of low flow sampling events. Requesting that Object Detection Survey be approved today to keep future projects on schedule.
- Final Draft Holistic PMF Report available for review in February – Approve March TF meeting
- Initial Historical Assessment for Mission Reach and Mission Reach Source Assessment Monitoring Report presented, discussed, comments due March 30.

- **Next meeting**

- Regularly scheduled TTWG meetings: Third Wednesday of the month from 9:00 – 11:00 am, as needed

- **Upcoming TF recommendations for action**

- Mission Reach Report including all ‘hotspot’ work was released for review this month – TTWG will vote to approve in April, Request TF approval in April
- Summary of Key Findings from Initial Historical Assessment for Mission Reach released late Feb 2022, TTWG will vote to approve in April, Request TF approval in April
- Project recommendations from Data Workshop (March – May)
